THE DAILY STENING WINCESTAFF TULLSHEEFHIA, MONDAY, LANGALY 24 1870.

A MERITED COMPLIMENT.

We clip the following description of one of our well-known citizens from the Indianapolis Sentenel: -

[Correspondence of the Scating.] ar Sentinel:-After devoting my attention a week to the commercial interests of Philalphia, I find the manufacturers and merchants waking up to the importance of securing the immense Western trade, which is now placed more directly within their reach by the late consolidation of the Pennsylvania Central with other railroads, now making a direct, unbroken line of

transportation to Indianapolis, your celebrated railroad centre. A spirit of determination is aroused to extend their commerce through your city by a liberal use of the advertising columns of your valuable paper, learning, as they have,

the intrinsic value of printer's ink.

Bidding adieu to mine host, Mr. S. M. Heulings, proprietor of the American Hotel, located on Chesnut street, opposite Independence Hall, which, by the way, is one of the most pleasant homes to be found in the country, I started to make my last call for the week, previous to taking my departure for New York, on Dr. Schenck, at his office. On arriving at my destination I learned that the Doctor had just returned from a duck hunt with a number of friends who had accompanied him in his private pleasure steamer named "Seaweed," in honor of the success of "Schenck's Seaweed Tonic." Having a desire to see the beautiful boat, I put in my appearance at the dock where she was moored, and was kindly invited by her owner to step aboard for a trip up the Delaware, which invitation I accepted with many anticipations of the pleasure I was to have. With a numerous company on board, we were soon steaming up the river, and swiftly gliding by the beautiful residences dotting its banks on either side. The "Seaweed" was built by one of Philadelphia's best boat-builders-is somewhat smaller than the Ohio river steamers, and is fitted up with

To use a nautical expression, she was as taut and trim a little craft as I ever saw affoat, and we passengers had nothing to do but enjoy ourselves.

all the modern improvements and conveniences.

Just as the spires and steeples of the city were receding from sight we were summoned to the elegant state-room, where a tempting repast had been served up for our benefit. It is almost needless to say that we promptly responded to the call, and commenced the work of destruction with a will.

The dinner over, we returned to the cabin and indulged in a social smoke. Our fragrant Havanas were scarcely finished when the boat touched the landing-place near Dr. Schenek's rural residence. Disembarking, we reached the house after a short walk, and were heartily welcomed. After passing a very pleasant evening, we all

retired to dream over the pleasures of the day. A morning stroll over his farm, which comprises five hundred acres, three hundred of which are under good cultivation, convinced me of the fact that the Doctor follows his agricultural pursuits with the same energy as he has applied himself to curing that dread disease. consumption. On one acre, last season, he produced 450 bushels of potatoes, one bushel, weighing sixty-five pounds, numbering sixtytwo potatoes. I was shown one carrot, grown on his farm, which was twenty-six inches long, and another twenty-two inches in circumference. His horses, cattle, and sheep are proof of his good judgment of fine-blooded stock. In fact, Dr. Schenck is one of the first farmers of Pennsylvania. His farm is situated only eighteen miles by water and sixteen by rail from the city of Philadelphia. Considering that the Philadelphia and Trenton Railroad made it a passenger station on their line, and honored the same with his name, some time ago, when it was much smaller, he is justly looking forward with a great deal of hope to see "Schenck's Station" a thriving city at no distant day. He has secured all the lands he wants, and has commenced laying out and selling lots of a few acres each, which will make very desirable homes for persons doing business in Philadelphia who wish to avoid high rents. His estate contains a beautiful grove, at which Dr. Schenck generously gave the Philadelphia Washington Greys a picnic, including a free train to and from the grounds, last summer, in honer of his son's, P. H. Schenck, membership. This grove is reached direct by steamers and sall boats or by rail, and is bound to be the favorite picnic grounds in that vicinity. On the grounds adjacent to his mansion he has built several fine houses, which he is renting to persons from the city. These, with his farming tenants, constitute quite a population, and give Schenck's Station a lively appearance even at

the present day. Dr. Schenek will soon an-

nounce and create a sensation by announcing to

the public the rare medical virtues which he

is convinced that the water of a spring which

is situated in his lawn possesses. Now that

he has secured all the land he wishes

for the town project, there is no longer any

reason for keeping this second Saratoga a secret.

Dr. Schenck, however, owes his fame to the

medicines which he has discovered for the cure

of consumption, and a few words about his

method of treating this disease may not prove

uninteresting. In the first place, he does not

claim that all cases of consumption can be cured, but does assert that often when patients have the most alarming symptoms, such as a violent cough, creeping chills, night sweats, and general debility, even to such a degree that they are obliged to lie in bed, and when they have even been given up by their physicians, they need not despair. His treatment is unlike that of other physicans. He does not aim to check the disease at once, and leave the causes smothered, to show themselves in a worse form; but by the use of his Mandrake Pills he restores a healthy tone to the organs of digestion. The digestive powers in good order, food has its proper effect, the system is invigorated, and the lungs begin to exercise their function in a normal and healthy manner; the healing power of his Pulmonic Syrup completes the cure. That thousands who have been cured by the

use of his celebrated medicines and the world at large owe Dr. Schenck a debt of gratitude. no one will pretend to doubt. It gives me much pleasure to announce that his son, J. H. Schenck, Jr., who has recently graduated with the highest honors from one of the best medical colleges in the United States, bids fair to equal his father as a successful phy-

Wishing my amiable host and hostess, as well as their affectionate family and chosen friends, adleu, I have inscribed on memory's page the anticipated pleasure more than fulfilled.

FIRST MORTGAGE SINKING FUND. Seven Per Cent. Gold Bonds

Frederickeburg and Gordonsville Railroad Company of Virginia,

Principal and Interest Payable in Coin, Prec of United States Government Tax.

These Bonds are secured by a First and only Mortgage

The Farmers' Loan and Trust Company of New York, as Trustees for the Bondholders.

The Mortgage covers the entire road, Right of Way Franchises, Rolling Stock, Equipments, Lands and Property, real and personal, now belonging or which may hereafter belong to the Company. A SINKING FUND is also provided, which will reduce the principal of the debt TWO THIRDS of the entire amount in advance of the maturity of the Bonds,

The Road is @ miles long, connecting Fredericksburg via Orange Court House, with Charlottesville, which is the point of junction of the Chesapeake and Ohio Railroad to the Ohio river, and the extension of the Orange and Alexandria Railroad to Lynchburg. It forms the shortest connecting link in the system of roads leading to the entire South, Southwest and West to the Pacific Ocean. It passes through a rich section of the Shouandoah Valley, the local traffic of which alone will support the Road, and it must command an abundant share of through trade from the fact of its being a

SHORT CUT TO TIDE WATER ON THE POTO-MAC AT THE FARTHEST INLAND POINT WHERE DEEP WATER FOR HEAVY

SHIPPING CAN BE FOUND ON THE WHOLE LENGTH OF THE ATLANTIC COAST.

From Charlottesville to Tidewater by this route the distance is 40 miles less than via Alexandria; 65 miles less than via Richmond and West Point: 124 miles less than via Norfolk.

A limited amount of these bonds are offered at 92%, and interest from November 4, in currency.

From an examination in person, and also by competent counsel, of all the papers and documents relating to this loan, we are enabled to pronounce them entirely correct and satisfactory; we have also had the work and property of the company examined by our own agents, whose reports agree with those made by the officers of the company, and we therefore recommend these bonds, the issue of which is limited to \$16,000 per mile of complete and equipped road, AS A FIRST-CLASS SECURITY IN EVERY PARTICULAR, and as a most desirable investment, giving a large increase of income over investments in any description of Government bonds.

Chicago, Danville, and Vincennes Railroad.

The Bonds follow the completion of the Roadhave the Union Trust Company of New York as their Official Register and Transfer Agent-and are sold at present at 95 and accrued interest.

They bear examination and comparison better, it is believed, than any other now before the public, in the fixed and unchangeable elements of Safety, Security and Profit.

They bear good interest-Seven per cent. Gold for forty years-and are secured by a sinking Fund, and First Mortgage upon the road, its outfit, and net income, the Franchises, and all present and future acquired property of the Company.

They depend upon no new or half-settled territory for business to pay their interest, but upon an old, well-settled and productive country-assuming that a railroad built through the heart of such a region offers better security for both Interest and Principal than a road to be built through the most highly extolled wilderness or sparsely settled territory.

This Railroad possesses special advantages, in running into and out of the City of Chicago, an important Railroad and Commercial Centre; in running through a line of villages and old farming settlements in the richest portion of the State of Illinois; in running near to deposits of Iron Ore of great extent and value, and over broad fields of the best coal in the State-which mining interests are its monopoly. And besides the local and other business thus assured, there will be attracted to this road the considerable traffic already springing up "from the Lakes to the Gulf;" as with its Southern Connections it forms a Trunk Line 45 miles shorter than any other route from Chicago to Nashville.

These Bonds are therefore based upon a Reality, and a Business that a few years must inevitable double-and competent judges say treble-in value.
